

## Threw It Away

SOiL

You had your chance, it's over, no more time  
This is not even over, it blows my mind  
Can't understand what's in your mind  
I feel this deed within me, it's all inside  
I sacrificed everything, now it's my time

Throw it away, you threw it away, it's gone forever

I don't know any other way to live my life  
This is all I've ever wanted and it's mine  
Can't understand your mind, I don't understand  
Can't understand what's in your mind

Throw it away, you threw it away, it's gone forever

You had your chance, you're done, now it's in my grasp  
He, who hesitates, is lost and now I've got the upper hand

Throw it away, you threw it away, it's gone forever

You played that hand and folded, you let it go  
I stepped in and kicked the door open, you can't stop us now

Throw it away, you threw it away, it's gone forever
