## **Threw It Away**

You had your chance, it's over, no more time This is not even over, it blows my mind Can't understand what's in your mind I feel this deed within me, it's all inside I sacrificed everything, now it's my time

Throw it away, you threw it away, it's gone forever

I don't know any other way to live my life This is all I've ever wanted amd it's mine Can't understand your mind, I don't understand Can't understand what's in your mind

Throw it away, you threw it away, it's gone forever

You had your chance, you're done, now it's in my grasp He, who hesitates, is lost and now I've got the upper hand

Throw it away, you threw it away, it's gone forever

You played that hand and folded, you let it go I stepped in and kicked the door open, you can't stop us now

Throw it away, you threw it away, it's gone forever
