

# This Glass House Of Broken Words

Soilent Green

Unmatched  
Indulgence  
Taken in as the eyes roll back  
Silent words  
Die alone  
Offering this visionary action to make truth fact  
The loss of human compassion in the end  
She spoke of romantic times  
A lie  
Undetermined love  
Wings of the whore opened wide  
She smiles and says she loves you  
Despise  
Put a gun to the mouth  
All lost love dies  
Felt it coming in these past years  
Left sitting with no more friends to care  
Never show a blank look in question  
Force this abrasive resentment  
Hopeless, Kisses, Left shameless  
Romance, In reason, This treason  
Emotion zero  
An attitude of unlove  
Tears wrinkle these pages  
These tainted stages  
Decipher this  
A pain that is focused  
Blank words for the lonesome  
Tolerance is wearing thin  
Prone manner towards the weak  
Bled this forever pain  
Lost passion of another love filled stain  
Unmatched conviction  
Falsify this wise regret  
Drunken words of an adore unkept  
Swearing lies roll off her breath  
Natural causes  
A dying of inner love  
Last lie  
Black duct tape covers this mouth of sin  
A harsh kiss  
Words trapped in a breath of the end  
The pendulum ticks time to bear your loss  
Pick-up the pieces to your broken cross  
A lustful intention faced with obsessed delirium  
Loosing charity with liquor covered of tragedy
