

# Light Discovering Darkness

Soilwork

Light, time is on my side  
Well you better believe it's true  
Cause you can't make me run

They call it life  
Covered 'till it makes you blind  
Do you wanna make the trip outside  
Then you better start running

I won't let it distract me...

Out...  
I can't believe it's true  
You better just shut it...  
Out...  
They won't let me pull it through  
Shut it... out  
Can I push my luck on you  
Don't shut me out...  
Again...  
'Cause you better shut it out...

Define...  
The shelter as the time goes by  
It will change 'till you can't decide  
Now you're left without nothing...

I won't let you distract me...

Out...  
I can't believe it's true  
You better just shut it...  
Out...  
They won't let me pull it through  
Shut it... out  
Can I push my luck on you  
Don't shut me out...  
Again...  
Cause you better shut it...

I feel it too, I feel it  
I feel it too, no I can't see anything true...

I won't let it distract me...  
I won't let you distract me...

Out...  
I can't believe it's true  
You better just shut it...  
Out...  
They won't let me pull it through  
Shut it... out  
Can I push my luck on you  
Don't shut me out...  
I can't believe it's true  
They won't let me pull it through  
Don't shut me out...

Out...  
Don't shut me out...  
Again...  
Cause you better shut it...
