

## She Still Loves Me (Acoustic 2010)

Soja

I know it's hard now for you to see  
You can't change how it was  
Or how it's gonna be  
I'm what she wants  
You're just what she needs  
And if she still loves me  
She still loves me

Where is her sweater?  
It's not in her car  
It's not at her friend's house  
It's not at the bar  
I think you better,  
Think with the heart  
Take a look at yourself  
And see how lucky you really are.

I don't believe in luck after all  
Neither does she, but you know that now  
You should forget her  
Cause I've got her heart  
She hates the way that I tear it apart

I know it's hard now for you to see  
You can't change how it was  
Or how it's gonna be  
I'm what she wants  
You're just what she needs  
And if she still loves me  
She still loves me

What did she do today?  
What took her so long?  
Where has she been to?  
Where has she gone?

What does she think about?  
She sees the dawn  
When you feel her thinking  
And rolling around

What does she talk about,  
When her father calls?  
She says what you said  
She tells her old man that you're the one

What does she talk about,  
When her mother calls?  
You don't come up  
You don't come up at all

What do we do when life takes us so long?  
Why we waste so much time, I know ill never know  
Why do we stay here? Why don't we go?  
Why does everybody think that they can do both?

I know it's hard now for you to see

You can't change how it was  
Or how it's gonna be  
I'm what she wants  
You're just what she needs  
And if she still loves me  
She still loves me

I know it's hard now for you to see  
Cause you can't change a thing about how it's going to be  
And I'm what she wants  
And you're just what she needs  
But she still loves me  
She still loves me  
She still loves me
