

## Slow Down

Soja

You can search the world for signs of life  
And realize the truth is in your heart, is in your heart  
You can try to become who you want  
And never get away from who you are, is who you are  
You can trust another like no other  
Watch them fall and then you fall apart, it there's you apart  
Always seen myself alone  
But in my darkest hours is there you are, it's where's my guitar

So I can say  
Oh now, oh now, oh now, now now now now  
Oh now, oh now, oh now, now now now  
Oh now you gotta slow down  
Oh now all I have is now  
Oh now, oh now, oh now

I've been all around the world to find it  
Travel east and west like everyday, everyday  
I've been high and low since I have lost it  
How do I get back to yesterday, it feels like a game  
I have seen the look in people's eyes sometimes  
All I do is chase them away, chase them away  
Cause I have been all around the world  
To find it every time I do I don't let it stay, I chase it away

So now I say  
Oh now, oh now, oh now, now now now now  
Oh now, oh now, oh now, now now now  
Oh now you gotta slow down  
Oh now all I have is now  
Oh now, oh now, oh now
