

# I'll Kill Her

SoKo

So of course you were supposed to call me tonight  
You were supposed to call me tonight  
We would have gone to the cinema  
And after that to the restaurant  
The one you like in your street

We would have slept together  
Have a nice breakfast together  
And then a walk in the park together  
How beautiful is that?

You would have said I love you  
In the cutest place on earth  
where some butterflies are dancing with the fairies

I would have waited like a week or two  
But you never tried to reach me  
No, you never called me back

You were dating the bleach blond girl  
If I find her I swear, I swear

I'll kill her  
I'll kill her  
She stole my future  
She broke my dream

I'll kill her  
I'll kill her  
She stole my future  
When she took you away

I would have met your friends  
We would have had a drink or two  
They would have liked me  
'Cause sometimes I'm funny

I would have met your dad  
I would have met your mom  
She would have said  
Please can you make some beautiful babies?

So we would have had a boy called Tom  
And a girl called Susan born in Japan

I said it was a love story  
But you don't wanna get involved  
I said it was a love story  
But you're not ready for that

Me neither  
I'll kill her  
She stole my future  
She broke my dream

I'll kill her  
I'll kill her

She stole my future  
When she took you away

She's a bitch, you know  
All she's got is blondness  
Not even tenderness  
Yeah, she's clever-less

She'll dumped your ass for a model called Brandon  
He will pay for beautiful surgery 'cause he's full of money

I would have waited like a week or two  
But you never tried to reach me  
No, you never called me back

You were dating the bleach blond girl  
And if I find her I swear  
You know I swear

I'll kill her  
I'll kill her  
She stole my future  
She broke my dream

I'll kill her  
I'll kill her  
She stole my future  
When she took you away

I'll kill her  
I'll kill her  
She stole my future  
She broke my dream

I'll kill her  
I'll kill her  
She stole my future  
When she took you away

Man, I told you  
You know if I find her  
I- really- I- I mean  
I'll kill her for real  
'Cause that's for sure

You have to know  
I mean, eh, you know I can do it

Man, I'll kill her
