

## An English Garden

Sol Invictus

In the garden by the wall  
Something moved and someone called  
Why is it hollow beneath the stones?  
Why is Mother crying, on her own?

An english garden in the rain  
Somenthing hidden, and something strange  
Don't go walking in the woods  
Yes Father dear, you're understood  
An english garden in the rain  
Someone whispered my name  
Victoria sits upon her throne  
And when we fall, we'll fall like Rome

Why can't we in the garden play?  
The servants stare then look away  
Why has the hall clock suddenly stopped?  
Why are the French windows always locked?

An english garden in the rain  
Somenthing hidden, and something strange  
Don't go walking in the woods  
Yes Father dear, you're understood  
An english garden in the rain  
Someone whispered my name  
Victoria sits upon her throne  
And when we fall, we'll fall like Rome

Why was the governess sent away?  
Why won't any of the servants stay?  
Is that thunder overhead?  
And who's that standing by my bed?

An english garden in the rain  
Somenthing hidden, and something strange  
Don't go walking in the woods  
Yes Father dear, you're understood  
An english garden in the rain  
Someone whispered my name  
Victoria squats upon her throne  
And when we fall, we'll fall like Rome
