

Look Good with Trouble

Solange

Hey little heartache, skipping out of town and
You stay out of trouble, you make it look good

Hey little heartache, you're looking kinda charming
On the covasack when nobody comes loop

Hey, little heartache, turn us to the highway
Let's get into trouble, you make it look good

Hey young lover, best never the proud way
Took me to the fresh, but be sure to come look

Hey little heartache, you're looking kinda charming
On the covasack when nobody comes loop

Hey, young lover, turn us to the highway
Let's get into trouble, you make it look good
