

Nuclear Bomb

Soldiers of Jah Army

August 6th 1945 one american plane in a japanese sky,
The people saw all lights stand in the air
After seconds pass no one standing there
More than 100, 000 people face saw them death,
I wanna know america, do you think jah forgot this.
For over for square miles man woman and child atomic bomb nah miss...

Nuclear bomb, nah nah. ooh.
Nuclear bomb, them drop a bomb yeah.
Nuclear bomb, nah. ooh, innocent one.

Children, no there is nothing to wonder just now we see one big murder from?
day 1.
But inna gossip guide the radiation covered one mile,
No matter who they where or what they said, no one survived.
Three months past that mutation on people,
Truely like joke now crossed with no evil.
And like jah say son, where have you come from?
I ask america what have you done?

(chorus)

You think they know the night before we're thought and
The next day? there will be nothing left.
You've seen the smiles upon there mother's faces
As they play with the innocent children.

Oooh, a radiation setting, barring is the places i'm in.
No one to leave there, no one to grow there, no one to love there.
