

## Blue Leaves

Sóley

I sailed in the forest with you  
The water was covered with blue  
Leaves from the party we left  
We put all our drinks in the bag  
And put it on the table  
We ate them  
After the night I woke up  
My head was still on the  
Table and my eye sailed away in the boat we came on

:We jumped into the water  
We ate it  
We got my eye from the ocean  
And we put it on:

I sailed from the forest with you  
The leaves in the boat were yellow, green and blue  
And we threw them in the air, it was rain  
Leaving the sky only for us  
We put them on the table  
We ate them
