

## I'll Drown

Sóley

He is alone  
In his house out there  
Far far away  
He sleeps with his eyes open  
He was so sad last night  
In his house out there  
He took my hand  
And whispered

I like his old style  
In his house out there  
His windows are eyes  
His garden is wonderful  
But these waterfalls of tears come from him  
He will fill this house  
He takes my hand  
And whispers

I'll drown when I see you  
I'll drown when I see you  
I'll drown when I see you again

His tears run so fast  
In his house out there  
We tried to get out  
His house took our hands and smiled  
And I'll never escape  
From this sad, sad house  
I take his hand  
We sink

I'll drown when I see you  
I'll drown when I see you  
I'll drown when I see you again

I'll drown when I see you  
I'll drown when I see you  
I'll drown when I see you again
