

The Sun Is Going Down II

Sóley

The summer is going to end
On a rainy day like this
He packed his house and left her

Now she will stay awake
And wait for him to come
She might not wait forever

I'll find my way to the sea
I'll run before it ends

Uuuuh, the sun is going down
He's saying good bye bye bye

Here's the summer ends
She sees him run away
Outside the kitchen window

Her tears will stay awake
They made this rainy day come
She is the winter weather

I'll find my way to the sea
I'll run before it ends
He said in the note he left her

Uuuuh, the sun is goin down
And saying good bye bye bye
Summer loves the winter
