## **How Can We Survive**

**Solid Base** 

Crying I never wanted you to go away Leaving me alone Trying to see what happened, what meant to be But I can't live without you

Baby, why did you have to be you baby It's so unfair to me, I need you I can't believe that you are gone Because you didn't want How can we survive is what you want What can we do to make it better What will our children born want to be Can someone tell me

One day what kind of people Leaving me to die Something has happened to this world And I don't want a part of it baby

I ain't tripping cause I got a mind on my own Thinking 'bout the youngsters that ain't yet to be born What world do we had to leave behind With these drugs, violence, society going blind
