

Katie Katie forever  
I wonder where are you  
Katie Katie forever  
I miss and I love you  
Where are you Katie?

Katie you are my lady so why did you walk away  
'Cause without you by my side I can't last another day  
You got to tell me now when you look into my eyes  
And realise that you took me by surprise  
So baby tell me now 'cause I really need to know  
If I ever mistreated you or made you feel low  
Now I'm thinking of the times that we shared together  
Yeah you all of that and I'll love you forever

Where are you now my friend  
I'll stay until the end

Katie Katie forever  
I wonder where are you  
Katie Katie forever  
I miss and I love you  
Where are you Katie?

Hey love what's up how you doing  
We had a good thing that you had to go  
And ruin without no explanation  
What I did wrong I guess I got to go  
'Cause it's time to move on

Where are you now my friend  
I'll stay until the end

Katie Katie forever  
I wonder where are you  
Katie Katie forever  
I miss and I love you  
Where are you Katie?

Where are you Katie?  
Where are you Katie?

Katie Katie forever  
I wonder where are you  
Katie Katie forever  
I miss and I love you

Katie Katie forever  
I wonder where are you  
Katie Katie forever  
I miss and I love you  
Where are you Katie?

Where are you Katie?
