

Every night I look at the stars
Trying to make a wish from my heart
Knowing that the one for me is in my reach
I close my eyes and I fantasize about you
I reach for you - so tenderly you reach for me
One look into your eyes tells all that I wish for
And so much more, cause baby you're my
Fantasy - oh baby just you and me
Together we will fly away
On the wings of love
To the stars up above
When I'm feeling cold and alone
Oh no
Waiting patiently by the phone
You're the only one I need to
Keep me warm
I dry my tears think that you're here with me
Like the sun in the sky
Like the moon shines at night
Come light up my fire
There's no limit together,
Come fly away with me
