

I Gotta Get My Groove On

Solid Harmonie

Started to feel this way the day
I ran up on ya
I have made love to you but only in
My mind
You said the relationship you're
In was kind of shaky
And that you would roll with me
If I could wait a while
We'll I'm not the kind of girl to
Make decisions in a rush
But I'm getting tired of waiting
And my body needs your touch
Don't worry 'bout her findings out
- nobody needs to know
Don't wanna move too fast but
You're moving too slow
And I gotta get my groove on
The way I feel tonight it won't
Take long
We can skip the candlelight -
Skip the love songs
And get right down to the biz -
Lets get it on
(2x)
When I call your page and leave
A message you'll come running
Find some excuse to leave and
Meet me where I live
I won't be wearing much - just
Fragrance and a see through
Baby come through cause I got
So much love to give

I want you to make a booty call
Come over and climb my walls
Boy I'll be down to try it all -
Whatever you like
