

# Another Day Is Gone!

## Solitary Experiments

Show must go on

With a bit of fate

Loosing the chance don't hesistate

The way of life seems too simple

Each up and down emotion overflow

Another day is gone

And follow the dust into the unknown

What ever happend we don't

Falling down on our knees and resist all the forth  
comming fears

Another time will come

We are suffering to be strong

No matter which problems we must overcome

there's a light in the end of the way it is worth to  
stay

Abyssfull world is breaking down

The inside hurts it made me sad

A desperate cry from far away

The time is on it's not too late

Don't try to hide

Because there's no place that you can go to rest in  
peace

The only thing you have to do is face the fear what are  
you waiting for?

Another day is gone

And follow the dust into the unknown  
what ever happend we don't  
falling down on our knees and resist all the forth  
comming fears

Another time will come  
We are suffering to be strong  
No matter which problems we must overcome  
There's a light in the end of the way it is worth to  
stay

Another day is gone  
Another time will come
