## **Fast Forward**

## **Solitary Experiments**

Increasing the efficiency
Reducing all complexity
Improving your capacity
To reach the best productivity

Imagine inconceivability
To find your own individuality

Go further, as faster as you can

Beyond the limits of mankind's development

The process still running straight ahead

A further step forward is in progress

Accelerating the velocity
Searching for causality
Using your capability
To get high flexibility

Go further, as faster as you can

Beyond the limits of mankind's development

The process still running straight ahead

A further step forward is in progress
