## Soul Searchin'

**Solomon Burke** 

I was a fool I told a lie I did you wrong I made you cry So now i'm walking all alone Down the darkest street in town Standing in the rain While my tears keep falling down I'm soul searching How could i say goodbye to you? I'm soul searching I made you cry How could i leave Somebody like you How could i do all the silly things That i do Wht makes me try the way i do Act a fool the way i do I need you so bad baby Won't you come back to me? I'm soul searching But nobody like my baby I keep soul searching It's driving me crazy Why Did i ever say goodbye I must be outta my mind I keep walking and looking for a sign I gotta be crazy baby To ever let you go I keep looking for a sign Oh why Do i get all the bad breaks How could i make Such stupid mistakes But the truth won't come to me No matter how i wreck my brain The rain keeps falling down And i keep calling out your name I'm soul searching
