

# Gravitational Lensing

Solution .45

Into what goes on forever  
Beyond perspectives lost  
Kaleidoscope vision  
Introspective display  
What hides in plain sight

Force it into my head  
Now is the only time  
Hiding behind a lie  
All I know

I cast the fire

Inside these hours  
All alone  
For I am in denial  
Though never again will I  
Direct my shields  
Against another  
But turn it on myself

Come back  
To something I need  
Come back to misery  
Living the misdirection  
All I know  
The further off center  
My lies become

Force it into my head  
Now is the only time  
Hiding behind a lie  
All I know

I cast the fire

Inside these hours  
All alone  
For I am in denial  
Though never again will I  
Direct my shields  
Against another  
But turn it on myself

No sight - unseen  
No light - in between  
Gravitational lensing  
What they see  
Is bent around my lies

Around this black hole  
I have found myself again  
Brought out the answers  
For my seeing eyes only  
Travelling in circles  
I have found myself again  
No way to face it straight

Inside the lonely

Here in the night of nights  
Where nothing shines  
I brought the flame down  
On it all - unforgiving  
In time the flame will die  
The only hope I have to find  
To never deny, never regret  
The masquerade is over

As long as I cast the fire
