

I Need Drugs

Some Girls

Cut it 'til it's gutted
I let my weight fluxuate, f**k
Yes, love is a jellyfish and I clean my stings with tenderized
piss
No, I don't care very much
You keep your mouth f**king shut when you talk to us
The dream machine will take it's tilt
The fear will bloom, the heart will wilt
Friends forever f**king each other's f**k-friends
These are the 'ins and outs' and I'm out to win
Fuck it
Thank God I love my life
Thank God I love my friends
With all this lithium, the stability could never end
