

Oregon Girl

Someone Still Loves You Boris Yeltsin

Oregon girl ive been around the world but ive never seen anothe
r Oregon girl.

Oregon girl with your lips and curls I want a taste of that Ore
gon girl

There's a mountain

There's a time to

They were put up there to keep us apart

So I watch you making plans and I make plans

You could kick a drum but

You just try to stop me now from movin' on with an Oregon girl

HEY! Wait for me another year or two I will graduate and marry
you

You roll the number and I'll buy the lumber

To build a house up on an Oregon hill

There's a mountain

There's a time to

They were put up there to keep us apart

So I watch you making plans and I make plans

You could grow a thumb

But you just try to stop me now

From movin?'on with an Oregon girl
