

## Say Something

### Something for Kate

Tonight is like space invaders  
There is nothing at work  
The faces have become like traffic  
Multi-purpose conversation  
I stand like a lighthouse  
I have become a lighthouse  
But if we met we would exhaust this place  
And if you spoke then this world would short-circuit

Say something  
Make it a direct hit  
Say something  
Make me never forget

I don't want to stand and compute  
I want days and weeks to burst out of you  
I am listening for dear life  
I want you to talk like it's a breakthrough
