

## What Is This?

### Something With Numbers

I'm dumbfounded I'm in denial  
I'm right here where I want to be  
I've caged myself in my own rite  
I never ever want to let another see inside of me

Is there anybody out there  
And who are you with  
If this ain't business  
Then what is this

Is there anybody listening  
And who are you with  
If this ain't business  
Then what is this

What is this?  
What is this?  
What is this?  
What is this?  
What is this?  
What is this?  
What is this?  
What is this?

I'm in control I've lost my soul  
I'm right here where I want to be  
I'm indirect and intellect  
I never ever want to let another see inside of me

Is there anybody out there  
And who are you with  
If this ain't business  
Then what is this

Is there anybody listening  
And who are you with  
If this ain't business  
Then what is this

What is this?  
What is this?  
What is this?  
What is this?  
What is this?  
What is this?  
What is this?  
What is this?

Is there anybody out there  
What is this?  
Is there anybody out there  
What is this?  
Is there anybody out there  
What is this?  
Is there anybody out there  
What is this?  
Is there anybody out there  
What is this?
