

# Kings & Queens (Throw It Up)

SoMo

She put on her heels  
Put on the dress  
Put the address in the gps  
Pick up the girls  
Look at those curls  
Damn they all just lookin so fresh

Put on the belt  
Put on the shoes  
Man that boy just looking so smooth  
Picked up the drank pick up the boys pick up the beat now drop that noise

There goes the sun  
Here comes the fun  
Drop that bass and pop that trunk  
Rollin on up  
Stepping on out  
It's our night let's live it up  
You got the lights  
I got the love  
Tap that keg  
And fill my cup  
It's our life it's our choice  
Turn up the beat and drop that noise

Throw it up throw it up  
Everybody's in love  
And we're tearing down this place  
Taking shots all night  
Till the moon light hides  
And the sun starts to show it's face  
Throw it up throw it up  
Throw it up up up  
Feel the bump coming out that bass  
Girls and boys make some noise  
Till they kick us out  
We're the kings and queens today

Turn up the beat  
Turn up the glass  
Only one night let's make it last  
Saw that girl  
Walking out back  
Thought one time yeah there's my chance  
Just might have to make her dance  
Just might have to use my hands  
Just might have to slap that  
Haha damn

My eyes met hers  
I wanted those curves  
Walked up to her  
Said a few little words  
She just smiled  
And we just danced  
While all them other guys just said damn  
Grab a hand

Party down  
And just fly to the beat of the sound  
It's our life it's our choice  
Turn up the beat and drop that noise

Throw it up throw it up  
Everybody's in love  
And we're tearing down this place  
Taking shots all night  
Till the moon light hides  
And the sun starts to show it's face  
Throw it up throw it up  
Throw it up up up  
Feel the bump coming out that bass  
Girls and boys make some noise  
Till they kick us out  
We're the kings and queens today

Less talk, more touch  
Less stress, more love  
Everybody party all night  
Everybody party all night, yeah

Less pain, there's too much  
Less tame, we're too young  
Everybody party all night  
Everybody party all night uh

Less talk, more touch  
Less stress, more love  
Everybody party all night  
Everybody party all night yeah

Less pain, there's too much  
Less tame, we're too young  
Everybody party all night  
Everybody live your life

Throw it up throw it up  
Everybody's in love  
And we're tearing down this place  
Taking shots all night  
Till the moon light hides  
And the sun starts to show it's face  
Throw it up throw it up  
Throw it up up up  
Feel the bump coming out that bass  
Girls and boys make some noise  
Till they kick us out  
We're the kings and queens today

We're the kings and queens to stay  
Yea I say  
Yea I say...
