

Enough Of Our Machines

Son Lux

I've had enough of our machines
I'm giving up and I am letting down

I've had enough of our machines
I'm giving up and I am letting down

I've had enough of our disease
I'm picking up and I will walk away

I've had enough of our disease
I'm picking up and I will walk away

I'm asking you to take
I'm asking you to take
I'm asking you to take
I'm asking you to take
I'm asking you to take
To take
To take
