

Brick Walls

Son Volt

There's more to this than waiting
Lined for you I'm searching for understanding
In this world, outside that heartache

Your heart is your fortress
Man parts and shackled doors
There's more brick walls and bridges on the way to your heart

Look down between the rules, carry on this way
Void of ceilings in the wind, crying for a lot of days

Love's a Spanish word to be sung
It ain't hard when love is on the run
There's more brick walls and bridges on the way to your heart

Ain't it hard with conventional ways?
Come calm puts love out of place
There's more brick walls and bridges on the way to your heart

There's more brick walls and bridges on the way to your heart
