

Down The Highway

Son Volt

Every road has a story to tell
The dreams that have soared, the dreams that fell
Of finding that level that says out of control
Prospecting riches that reside in the soul

Throw this love down the highway
See where it turns
Life is a shell game
Lessons lost, lessons learned

There will never be a time
The time that is now
To reach for the promise
A melody on the bow
Break up the silence
Make it clear, make it last
Forgiveness given,
Break away from the past

Throw this love down the highway
See where it turns
Life is a shell game
Lessons lost, lessons learned

There's a world of wisdom
Inside a fiddle tune
Throw this love down the highway
See where it takes you

Why all the mortar, bricks may crumble
Time moves along
With a dance step stumble
Really no choice
But escape from the past,
Wake up the silence
Make it clear, make it last

Throw this love down the highway
See where it turns
Life is a shell game
Lessons lost, lessons learned

Throw this love down the highway
See where it takes you
