

## Peacemaker

Sonata Arctica

You've got the wings of a fallen angel  
You offer peace if they praise your name  
You live your life taking everything you can get  
Look down, time to fly!

Life on the streets, you gamble with your own life  
Only two things: you live or you die  
Looking for fight, punishing guilty ones  
You're playing Judge Dredd all the time

Always trying to make things right  
Sometimes problems just multiply  
His peacemaker on the scene of crime  
Bad guys win though it won't seem right

Eating a hotdog on the corner of Main and some street  
You are a disciple of your own gun  
No one to talk, you say "I am the only one  
but God I wonder I won't see the sun"

It's raining heavily and you don't have a dime  
We see welfare, spend it all in one time  
Must save your bullets, using them all the time  
Yes, I am happy in...

Always trying to make things right  
Sometimes problems just multiply  
His peacemaker on the scene of crime  
Bad guys win though it won't seem right

You've got your fingers burning  
How come your gun is turning?  
You make them pray and then you calmly blow them away  
Taking rebels to the street, no matter who you're gonna meet  
because Everybody knows that he is..

Always trying to make things right  
Sometimes problems just multiply  
His peacemaker on the scene of crime  
Bad guys win though it won't seem right
