

Coliseum Town

Sondre Lerche

Coliseum town
Not a living soul around
I go stumbling cobbled streets
With the map you drew on me
And I can't decide
Did you leave or ever arrive?
I've been known to make things up
Now I'm talking to my cup
What's the chance of you returning?

Coliseum town
Should I wait around?
Maybe I'm mistaken
This dream's taken
Who put these thoughts in my head?
I'd better put this to bed
When I wake from
Dream inside a dream

To divert my mind
I try to make another love song rhyme
But it's harder than it seemed
To describe what I just dreamed
Coliseum town
Tell me if I'm out of a line
I may just have had too much
Or just never quite enough
Now the cobblestones are spinning
Am I singing?

Coliseum town
Should I wait around?
Maybe I'm mistaken
This dream's taken
The bartender showed me the door
I fell asleep on your floor
In another dream inside a dream
Dream inside a dream
