

# (I Wanna) Call It Love

Sondre Lerche

There is romance  
And there is love  
There are reports of a heart-robbing beauty whose victim I know  
I can't hesitate or wait  
'Cause I don't speak that language  
I don't know that tone  
I can't translate from right to wrong  
I can just call it love  
Yes, you heard right  
I call it love

There is romance  
And there is love  
That seems to be the only system that they know of  
But why be satisfied with only love  
When there are games you should know of  
Such as romance and turtledoves  
Who wonder if it's love  
I wanna call it love

Can we dance instead of walking?  
We wanna break in to love's industry  
Lie down where it's machinery slows down  
When we've danced our socks off and it's late  
We'll lie down to anticipate forever

When we romance  
I feel a part  
Of the loveliest human creature that I know by far  
Who stays away from other boys  
'Cause she knows where she's life or death or love  
Where she is thought so highly of  
Where someone calls her love  
I wanna call it love

When we dance  
Darling explosions!  
We are chemistry without chemicals  
A constant chain outside us both  
Remember!  
I've never felt so right before  
And chances are it could be so  
Can we dance instead of walking?  
We wanna break into love's industry  
Lie down where it's machinery slows down  
When we've danced our socks off and it's late  
We'll lie down to anticipate forever

There is romance that changes its course  
Or just sad statistics I answer with anti-remorse  
When I am satisfied don't tell me so  
Just let me go on and on and on  
And as I wake up by your side  
I'll know that it is love  
Or at least I call it love
