

## You Know So Well

Sondre Lerche

Use every chance you've been given  
She replied after several days  
It's no good to be perfect  
You know so well things are easy to tell

There is one thing I know, it goes like this  
It's that when I'm down and out it's you I miss

I have told you this before  
And my transparent mind  
Won't cover see-through hearts  
I'll be straight with you now

Now I'm not what you want just like the rest  
And you feel like you're a subject to a test  
But if there's one thing I know it's this  
When I lose my sleep it's you I miss

You sleep all night, you know you lie awake  
Tell me, yeah  
And time is running out, now you know so well  
It may never be, it may never be

Use every chance you've been given  
She is told, but it doesn't make her smile  
She has no need to be perfect  
She knows too well, things are easy to tell

I have said what I thought you should know  
But you never seem to recognize my face

And you sleep all night, you know you lie awake  
Tell me, yeah  
And time is running out, now you know so well  
It may never be, it may never be, never be
