

## A Widow Sang The Stars Down

Songs: Ohia

I know about how bleak it all can seem  
when you look at good or bad  
you say this is what I had  
and I know it is ambitious but it's still the truth  
I have something that's lasting in a man  
my heart has survived an order through the ruins  
the shadow and it's promise vibrates across the room  
you said it's savage but it's my duty  
to build something precious than to kill something precious  
then the shadow and then the promise clearly lost its nerve  
don't leave me now(x2)  
just say you're practicing for how you would say goodbye(x2)  
don't leave me now(x3)
