

## Coxcomb Red

Songs: Ohia

And I wanted that heat so bad  
I could taste the fire on your breath  
And I wanted in your storm so bad  
I could taste the lightning on your breath

I watched you hold the son in your arms while he bled to death  
He grew so pale next to you  
The world is so pale next to you  
Your hair is coxcomb red your eyes are viper black  
Your hair is coxcomb red your eyes are viper black

You said every road is a good road  
Between the next road and your last road  
Every love is your best love and every love is your last love  
And every kiss is a goodbye  
And every kiss is a goodbye

I watched you hold the son in your arms while he bled to death  
He grew so pale next to you  
The world is so pale next to you  
Your hair is coxcomb red your eyes are viper black  
Your hair is coxcomb red your eyes are viper black  
Your hair is coxcomb red your eyes are viper black
