

## Darkness That Strong

Songs: Ohia

Darkness that oblique, darkness that strong  
The moon in it's cradle is casual is distinct  
From the stars  
From the stars

They are his father upon the land  
And I made an estimate of the secret laid plan  
And I make an estimate of the secret that they bare  
When they are down here

Darkness that oblique, darkness that strong  
Darkness that oblique, darkness that strong  
And that is my report  
And that is my report
