

Howler

Songs: Ohia

the light in the dust, the light in the desert
the shadow on us, shadow on the compass
dog's ghost red eyes the dog's ghost blue eyes
howler (x4)
electric eyes in hell run on power made in cleveland
the slow bells write time out in blood
the slow bells write our shadows out in blood
and the slow bells write my echo down in blood
howler (x3)
the breath in my skull horizon in my blood (x2)
howler (x5)
