

# Keep Only One Of Us Free

Songs: Ohia

The space you gave to me  
You marked out dividing lines  
Keep only one of us free  
Keep only one of us free

The frame that held me  
The frame that held me  
Has rotted away  
Has rotted away

Now we are paired again  
Back with friction  
Back with friction  
Back with friction

And black angel falls in with one of us again  
And light is barely breathing its breath between us  
Between black angel black angel black  
We have lost what we had marked

Out for ambition  
Out for ambition  
Now only one of us are free  
Only one of us are free

Only one of us are free
