

## Nervous Bride

Songs: Ohia

The women are dressed up and they are up to no good  
You're dressed up for liberation  
You flash that fire flag you fly above  
The bright hot sails of your eyes

They say vaguely goodbye  
They say vaguely goodbye

There is a long delay in our words  
Then there are no words  
And I lay down tonight as nervous as a bride

She's not nervous but she tries  
She's not nervous but she tries

And it's vaguely goodbye  
And it's vaguely goodbye  
And it's vaguely goodbye
