

Not Just A Ghost's Heart

Songs: Ohia

After all this work she's still built to sail
The curve of the whole coast her curve's the whole coast
How she could read the map showing only the sea
Only empty houses (empty houses)
Are we still able, at night to watch

With human heart's at all
With human heart's at all

How she could read the map showing only the bells
How she could read the map showing only the bells
She's still able, at night to watch

With a human heart
With a human heart

Not just a ghost's heart
Not just a ghost's heart
Not just a ghost's heart
Not just a ghost's heart
