

Still Around

Songs: Ohia

to make you stay I'll never try
and when you go I will not cry
but for awhile I might be found
somewhere near, still around
and may you find a love that's true
someone to love and cherish you
and may you love as I love you
and if you ever feel alone
with no true love to call you own
and if you need a place to hide
these arms of mine are open wide
and if a cold love brings you pain
my love is warm as summer rain always
remember I'll be found, still around
