

## The Lost Messenger

Songs: Ohia

a little frightened of going near  
a little distracted I hear  
wouldn't you rather come back with me?  
you never used to get worried and now I'm worried  
it's never ending put it all away  
that shit is never ending put it all away  
when you aren't around you can never say you were trying to quit.  
you were trying to quit  
that shit is never ending  
you're already surrounded  
that shit is never ending and you're already surrounded  
and I ask and I am worried  
you asked so i said I was frightened
