

Two Blue Lights

Songs: Ohia

Two blue lights

One's the blue light of the late night bus

One's the blue light of the moon over us

One's got the diesel fuel on her breath

One's got the damp taste of the earth on it

Two blue lights

There's a dead archer in the tower you can't hear it but you can tell

When the bells ring twelve times in hell the bells ring twelve times in this town as well

Two blue lights

Two blue lights
