

# Leave Me Alone

Sonic Syndicate

My dreams are always the same.  
(This movie of you)  
It flickers in my brain  
Over and over again.  
(Now)

What is it I got  
That triggers you to follow me day and night?  
I can smell your scent all around.

I don't know what your demons are telling you,  
But it ain't me you're looking for.

Why,  
(Why!)  
Why won't you leave me alone?  
It drives me insane!  
And why (why!)  
Why won't you just let me go?  
Stay out of my way.

I slept with the enemy.  
They stole all that I've got.  
Framed by lust as I've been out of control.

I don't know what your demons are telling you,  
But it ain't me you're looking for.

Why,  
(Why!)  
Why won't you leave me alone?  
It drives me insane!  
And why (why!)  
Why won't you just let me go?  
Stay out of my way.

And I'm locked in the yesterdays  
Of your cellular memories.  
But I'm cutting you out of the film to the floor.  
Let the light in as I walk out the door  
And you're gone.

Why,  
(Why!)  
Why won't you leave me alone?  
It drives me insane!  
And why (why!)  
Why won't you just let me go?  
Stay out of my way.

Stay out of my way.
