

## Disappearer

Sonic Youth

Here it comes again - out of the rain  
Seems to have a new - kind of same  
Been it playing on a - simple rhyme  
The site comes alive and - speaks the mind  
It turns to me and - it turns to gold  
It turns to see a - the fast lane slow

It's been a way too long  
It's been the way I gone  
It's a-coasting on  
To the west star

Looking out I thought I - saw it blink  
Coming on to me - like a silver eye  
Pick it up and - turn it on and  
Head on out to a - western starland

It's been a man and gone  
Now it's a singing song  
Like a western star  
It's going my way

Looking out I'm back in - time to stay  
Into the eastern - silent way  
Comes alive through - through and clearer  
Ghost arise to - dirty mirror

You've been away too long  
It's been way too long  
An eastern star is on  
A disappearer
