

# Drunken Butterfly

Sonic Youth

Smile like a sun  
Back over time  
Crazy on you  
Pleasure is mine

I love you, I love you, I love you  
What's your name?  
I love you, I love you, I love you  
What's your name?

Here come through it  
Giving it up  
Going too far  
Try understand

I love you, I love you, I love you  
What's your name?  
I love you, I love you, I love you  
What's your name?

Whisper kiss me here  
I'll tell you what I fear  
Whisper kisses up here  
I'll tell you what I fear

Come on home  
Just ain't fair  
Name of rock 'n' roll  
Where love dies

Couldn't find a soul  
Tell it like it is  
Deep down inside  
Drunken butterfly

I love you, I love you, I love you  
What's your name?  
I love you, I love you, I love you  
What's your name?

I love you, I love you, I love you  
What's your name?  
I love you, I love you, I love you  
What's your name?
