

Dude Ranch Nurse

Sonic Youth

Keep on runnin' in the dark
Dude ranch dream is fallin' apart
Stolen kisses, let's pretend my friend
You play sick and I will mend

Let the action begin again my friend
You be patient and I'll attend
Let's rehearse, let's do it again
Dude ranch nurse, your brand new friend

Let nurse give you a shot, it's something to do
Turn my pulse
Let nurse give you a shot, it's something to do
I could love you, I could love you

Deep sleep coming along
Like a newborn colt you found
You're wrapping around the gauze
Dizzy reminder, ouch she found

Let nurse give you a shot, don't slip too far
I could love you, I could have you

You be cowboy and I'll allow
Let me ride you till you fall
Let's pretend there's nothing at all

Nobody knows the shape I'm in
Kiss me now it's just a sin
Nobody knows the shape I'm in
