

## Moon In The Bathroom

Sonic Youth

Every time I look at my life I think of you  
Every time I look at you I wonder, what to do  
So let's go, go away, go  
Let's go, I don't wanna stay any longer

God knows that you're my brother  
Gotta a funny idea that there is no other  
You know we have to make it - really last  
Have to make it happen - really fast  
Let's go, go away, go  
Let's go, I don't wanna stay any longer

If we could just know where we'd come from  
Maybe we could figure out something to do  
All I know now we're together  
And something tells me we might live forever  
So let's go, go away, go  
Let's go, I don't wanna stay any longer

Every time I look at you I wonder what to (12x)
