

Whoahoooh!

i love you baby 'cause you're back in time  
i love you today  
your eyes are flashing back a magic sign  
the sun comes out to play

i learned it all from you girl  
i got it all from you  
how to howl the moon yeah  
how to scratch your door  
i do it every day  
come back again tomorrow  
you chase it all away

a dreaming beauty sleeping day and night  
the sun around you  
i love you baby yeah you're superfine  
call me down too  
a purring whirring fuzzy likes of day  
the switching sunlight  
i chase you kitten get you every time  
funny how it flies

i learned it all from you girl  
i got it all from you  
how to howl the moon yeah  
how to scratch your door  
i do it every day  
come back again tomorrow  
you chase my life away

i hear you purring down a supersoul  
i pop in to look  
a personal letter yeah a [?] roll [gold?]  
let her tear away  
i learned it all from you girl  
i got it all from you  
how to howl the moon yeah  
how to scratch your door  
i do it every day  
come back again tomorrow  
you chase the life away
