

Radical Adults Lick Godhead Style

Sonic Youth

Send the moon thru the skylight
And bells together outrageously
Noiseball, flirtatious example
An' bless her soul to further degree
Theatre goddess, film destroyer
New York girls are sure to enjoy her
A fuzzy peach, teenage computer
A shockin' figure in the eye of the universe

I am dead by the beauty of strangers
In horror my eye, head transforms them
Into smiling, beatific room mates
From dust to dust they create rock n' roll
Here comes something, you are Lou Reed
Transformer cracked by the backyard stream
A killer tunes, bubblegum disaster
Radical adults lick Godhead style
